API Change Log

Materialise 3-matic Medical 19.0

1 Introduction

This document contains changes to 3-matic API. You can use it to find the extension of the API in the current 3-matic version and to determine which version changes will affect the calls of the API in your scripts. This document indicates API extension, improvements and removed API between 3-matic 18.0 and 3-matic 19.0. An overview of the changes between those two versions is presented below. Find in the other sections of the scripting guide detailed documentation about the API and tutorials.

2 New API functions added in this version

2.1. List of API functions
